Only 3 attendees, but it was informative especially with the upcoming 2020 census.

Around the table

Pam: *Alma seems to be working well. They are doing some restructuring of positions and waiting to hear more from Human Resources.*

Julia: *She will be giving a presentation on the first year experience at a conference in Las Vegas this coming February. They are working on the Alma migration and their catalog interface is going away. BU has lifted the hiring pause and there is a P/T position open in the pharmacy/nursing school.*

Jenny: *She presented a session at NYLA on Adult Programming. Finger Lakes Library System just held their annual meeting and Jenny has given 5 regional trainings on Polaris and is planning a grant workshop.*

Amanda: *The Alma migration is progressing. The library held a successful “Library Con” that brought in over 400 students for an escape room, crafts, food, etc.*

Camille: *There have been personnel changes and they are looking for two Associate University Librarians.*

Brian: *4CLS is finishing the asbestos abatement project.*

Diane: *She was assigned new duties that are increasingly taking her away from the library. There is new management at BAE Systems, so that may bring additional changes.*
