Of the \$5,000 awarded for the 2023 Technology and Digitization Grant, we have been able to digitize for NY Heritage uploads (with metadata) all 140 plate glass negatives from our Lee Brown Coye collection. We were also able to digitize for NY Heritage uploads (with metadata) the first 416 pieces from our Mary Fargo collection. (Progress on this proved to be a bit more slow going because there is more paper ephemera mixed in with the photographs than we initially realized.)
