They are being included in the staff/provider orientations and embedding is taking place throughout the hospital. They will be spending the SCRLC grant funds toward the end of April.
- Danielle shared that they have been fighting to maintain their space and how there is support of her efforts. The SUNY Upstate Medical Center Library access was cut off for her and the students at UHS Wilson this Winter. They've also been working to support nurses as the hospital begins its Magnet journey.
- Matt shared that they don't have a lot of news. They do have new chairs in the library which are appreciated. They are also getting ready to spend the HLSP Grant funds. He continues working with NYCAMH on their grant project and they are currently working to interview farmers which is a population that is being served through the grant project.
- Laura shared that she's been working on citation analysis studies for health sciences and also the pharmacy program. They hope that it'll be useful for purchasing more pharmacy journals. They have learned that there is no standard method for citation analysis. And they are considering getting some anatomical models.
